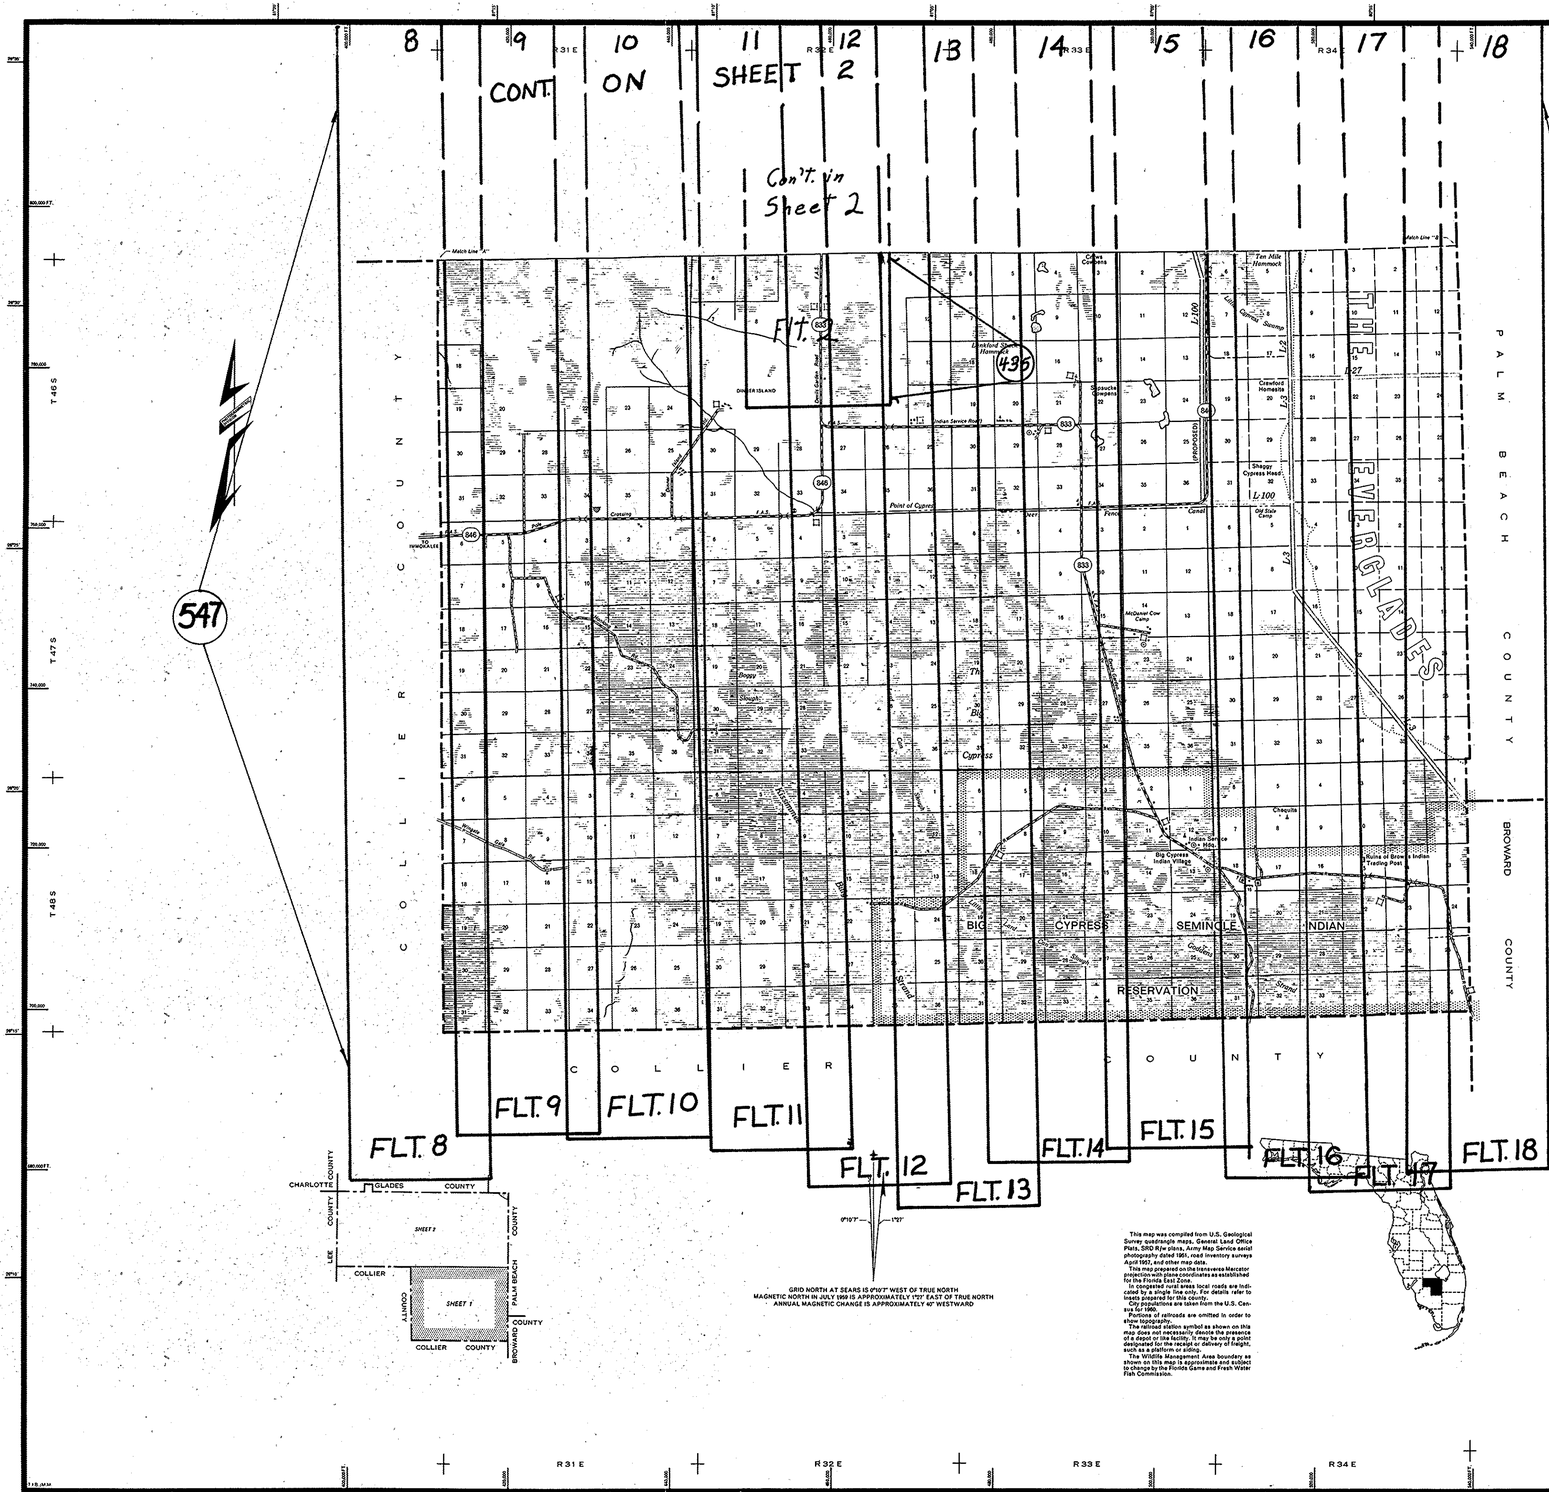
SHEET 2 OF 2 MAP SHEETS



GRID NORTH AT SEARS IS 0°10'7" WEST OF TRUE NORTH
MAGNETIC NORTH IN JULY 1959 IS APPROXIMATELY 1°27' EAST OF TRUE NORTH
ANNUAL MAGNETIC CHANGE IS APPROXIMATELY 40' WESTWARD

This map was compiled from U.S. Geological Survey quadrangle maps, General Land Office Plats, SRD R/w plans, Army Map Service aerial photography dated 1961, road inventory surveys April 1957, and other map data.

The State Coordinate System is a Transverse Mercator projection with plane coordinates as established for the Florida East Zone.

In congested rural areas local roads are indicated by a single line only. For details refer to maps prepared for this county.

City populations are taken from the U.S. Census 1960.

Portions of railroads are omitted in order to show topography.

The railroad station symbol as shown on this map does not necessarily denote the presence of a station building; it may be used to indicate designated for the receipt or delivery of freight, such as a platform or siding.

The Wildlife Management Area boundary as shown on this map is approximate and subject to change by the Florida Game and Fresh Water Fish Commission.

GENERAL LEGEND

- DIVIDED HIGHWAY
- PAVED ROAD—HIGH TYPE
- BITUMINOUS ROAD—MEDIUM AND LOW TYPE
- GRAVEL OR STONE ROAD
- SOIL SURFACED ROAD
- GRADED AND DRAINED ROAD
