

## FEATURE 143

### ASSOCIATED STATION EXCEPTION

Roadway Side	Allows Tie	LRS Package	Feature Type	Interlocking	Secured
C	No	No	Length	Yes	Yes
<b>Responsible Party for Data Collection</b>		District Planning			

**Definition/Background:** Stationing exceptions are used to indicate where two Roadway IDs traverse the same segment between two points (usually intersections). Only one of the roadways carries the data and the other roadway points to it. This is to avoid duplication of mileage.

**How to Gather this Data:** These characteristics are automatically generated when Feature 141 is coded.

Do not delete Feature 143 or any of its characteristics.

**RDWYID | COUNTY, SECTION, SUB-SECTION**  
**BEGSECPT | BEGIN SECTION MILEPOINT OF EXCEPTION**  
**ENDSECPT | END SECTION MILEPOINT OF EXCEPTION**
