GRID NORTH AT TRIANGULATION STATION "SCHROEDER" IS 00°10'14" WEST OF TRUE NORTH
MAGNETIC NORTH IN JUNE, 1973 IS APPROXIMATELY 00°12'49" WEST OF TRUE NORTH
ANNUAL MAGNETIC CHANGE IS APPROXIMATELY 7'30" WESTWARD.
This map was compiled from U.S. Geological Survey quadrangle maps, aerial photography flown in March, 1973, General Land Office plats, road inventory surveys July, 1973, and other map data.
This map was prepared on the Universe Mercator projection, West Zone, Florida system of plane coordinates.
The railroad station symbol as shown on this map does not necessarily denote the presence of a depot or like facility. It may be only a point designated for the receipt or delivery of freight, such as a platform or siding.
Road alignments and estimated populations in Delimited Areas were compiled from aerial photography flown in March, 1973, without field verification.
In congested rural areas local roads are indicated by a single line only. For details refer to insets prepared for this county.
No attempt has been made to show all drainage canals and ditches.
City populations are from the U.S. Census for 1980.
In 1980, the population of Manatee County was 148,442. There are 688 square miles in the county.
