This map was compiled from U.S. Geological Survey quadrangle maps, General Land Office plats, aerial photography flown in December, 1957 through April, 1958, road inventory surveys in November, 1957 and other map data.
This map was prepared on the transverse Mercator projection, West Zone, Florida system of plane coordinates.
In congested rural areas local roads are indicated by a single line only. For details refer to quadrant sheets and insets prepared for this county.
Portions of railroads and other secondary symbols are omitted in order to show topography.
No attempt has been made to show all drainage canals and ditches.
The railroad station symbol as shown on this map does not necessarily denote the presence of a depot or like facility. It may be only a point designated for the receipt or delivery of freight, such as a platform or siding.
City populations are taken from the U.S. Census for 1960.
All of the Bartow, Lake Wales and Haines City urban areas are included within the limits of the respective cities.
GRID NORTH AT WINTER HAVEN IS 0°07'30" EAST OF TRUE NORTH
MAGNETIC NORTH IN OCTOBER 1960 IS APPROXIMATELY 0°56'15" EAST OF TRUE NORTH
ANNUAL MAGNETIC CHANGE IS APPROXIMATELY 5' WESTWARD
