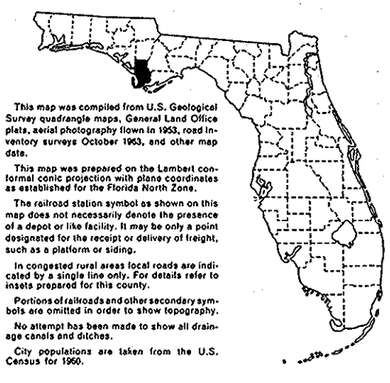
- RADIO OR TV STATION
- RADIO OR TV CONTROL TOWER
- LOCKED GATE OR FENCE
- DIRECTIONAL ARROW
- WETAPPO TRIANGULATION STATION WITH NAME
- LOCATION OF SYMBOL



This map was compiled from U.S. Geological Survey quadrangle maps, General Land Office plats, aerial photography flown in 1963, road inventory surveys October 1963, and other map data.

This map was prepared on the Lambert conformal conic projection with plane coordinates as established for the Florida North Zone.

The railroad station symbol as shown on this map does not necessarily denote the presence of a depot or like facility. It may be only a point designated for the receipt or delivery of freight, such as a platform or siding.

In congested rural areas local roads are indicated by a single line only. For details refer to insets prepared for this county.

Portions of railroads and other secondary symbols are omitted in order to show topography.

No attempt has been made to show all drainage canals and ditches.

City populations are taken from the U.S. Census for 1960.
