This map was compiled from U.S. Geological Survey quadrangle maps, aerial photography flown in Jan., 1987, General Land Office plats, road inventory surveys Oct., 1986, and other map data.

This map was compiled using interactive computer graphic techniques.

This map was prepared on the transverse Mercator projection East Zone, Florida system of plane coordinates.

The railroad station symbol as shown on this map does not necessarily denote the presence of a depot or ticket facility. It may be only a point designated for the receipt or delivery of freight, such as a platform or siding.

Delimited Areas were compiled from aerial photography flown in Jan., 1987, without field verification.

City populations are taken from the U.S. Census for 1980.

In 1980, the population of Orange County was 471,560. There are 970 square miles in the county.

No claims made for the basic cartographic source material taken from a work or works of the United States Government.

Maps of this series are in the public domain. The maps are compiled and published using public monies and are copyrighted to prevent photocopy and resale for profit.
