INSET "A"
T 3 S – R 19 E

INSET "B"
T 3 S – R 20 E

INSET "D"
T 3 S, T 4 S – R 22 E

INSET "C"
T 2 S, T 3 S – R 21 E, R 22 E

This map was compiled from U.S. Geological Survey quadrangle maps, aerial photography flown in Feb., 1983, General Land Office plats, road inventory surveys June, 1993, and other map data.

This map was compiled using interactive computer graphic techniques.

This map was prepared in the Lambert conformal conic projection, North Zone, Florida system of plane coordinates.

The railroad station symbol as shown on this map does not necessarily denote the presence of a depot or the facility. It may be only a point designated for the receipt or delivery of freight, such as a platform siding.

In congested rural areas local roads are indicated by a single tic only. For details refer to insets prepared for this county.

No attempt has been made to show all drainage canals and ditches.

City populations are taken from the U.S. Census for 1980.

In 1980 the population of Baker County was 15,289. There are 585 square miles in the county.

No claim is made for the basic cartographic source material taken from a work or works of the United States Government.

Most of the areas are in the public domain. The maps are compiled and published using public tax monies and are copyrighted to prevent photocopy and sale for profit.

Permission to copy or reproduce this map must be authorized by the State Topographic Bureau, Department of Transportation, Tallahassee, Florida 32399.

THIS PUBLIC DOCUMENT WAS PROMULGATED AT A COST OF $24,000.00 OR $0.2899 PER COPY TO PROVIDE INFORMATION NECESSARY FOR TRANSPORTATION PLANNING.

PRICE $2 (incl. State Tax)
