# GENERAL HIGHWAY MAP GULF COUNTY FLORIDA

PREPARED BY THE  
 SURVEYING AND MAPPING OFFICE  
 STATE OF FLORIDA  
 DEPARTMENT OF TRANSPORTATION  
 IN COOPERATION WITH THE  
 U.S. DEPARTMENT OF TRANSPORTATION  
 FEDERAL HIGHWAY ADMINISTRATION

This map was compiled from U. S. Geological Survey quadrangle maps, Florida Dept. of Transportation aerial photography completed April 1977, General Land Office plat, inventory surveys and other available map data.

This map was compiled using interactive computer graphic methodologies.

This map was prepared on the Lambert conformal conic projection, 1983 North American Datum, Florida system of coordinates, North Zone.

The railroad stations on this map do not necessarily denote the presence of a depot or line facility. It may be only a point, such as a platform or siding, designated for the receipt or delivery of freight.

No attempt has been made to show all drainage canals or ditches.

All populations are taken from the 2000 United States Census. In 2000 the population of Gulf County was 13,332. There are 558 square miles in the county.

No claim is made for the basic cartographic source material taken from a work or works of the United States Government.

Due to the scale of this map, the Florida Department of Transportation assumes no responsibility for inaccuracies in road alignments, configurations of intersections or other related data.

Corporate boundaries are determined using all available descriptions at the date of revision. The Florida Department of Transportation Surveying and Mapping Office is not responsible for inaccuracies resulting from unknown or unobtainable information.

Maps of this series are in the public domain. The maps are compiled and published using public tax monies and are copyrighted to prevent reproduction and resale for profit.
