REVISIONS	
FEATURES	DATE
State Maintained Roads	May, 2001

This map was compiled from the U. S. Geological Survey quadrangle maps, the most recent Florida Dept. of Transportation aerial photography, General Land Office plans, road inventory surveys, and other map data.

This map was compiled using interactive computer graphic methodologies.

This map was prepared on the Lambert conformal conic projection, 1983 North American Datum, Florida system of plane coordinates, North Zone.

The railroad stations on this map do not necessarily denote the presence of a depot or like facility. It may be only a point, such as a platform or siding, designated for the receipt or delivery of freight.

No attempt has been made to show all drainage canals or ditches.

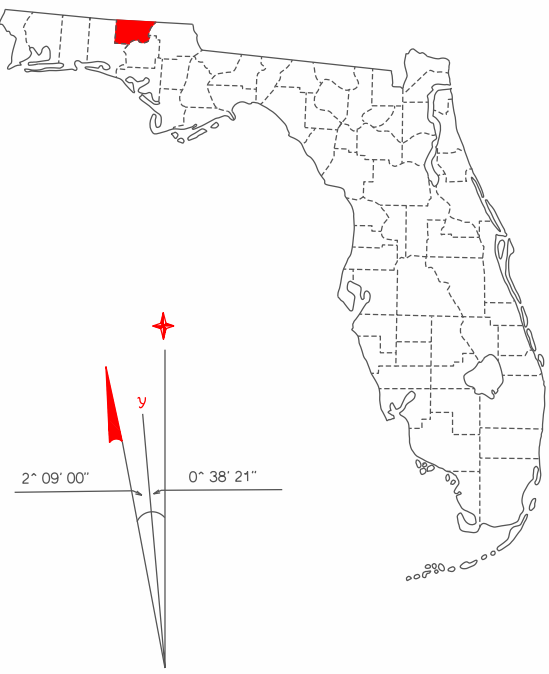

All populations are taken from the 2000 United States Census. In 2000 the population of Holmes County was 18,564. There are 630 square miles in the county.

No claim is made for the basic cartographic source material taken from a work or works of the United States Government.

Due to the scale of this map, The Florida Department of Transportation assumes no responsibility for inaccuracies in road alignments, configurations of intersections or other related data.

Corporate boundaries are determined using all available descriptions at the date of revision. The Florida Department of Transportation Surveying and Mapping Office is not responsible for inaccuracies resulting from unknown or unavailable information.

Maps of this series are in the public domain. The maps are compiled and published using public funds and are copyrighted to prevent unauthorized reproduction and resale for profit.

GRID NORTH AT TRIANGULATION STATION 'CRITCHFIELD' IS 0° 38' 21" WEST OF TRUE NORTH
MAGNETIC NORTH IN APRIL 2001 IS 2° 08' 00" WEST OF TRUE NORTH
ANNUAL MAGNETIC CHANGE IS 7' WESTWARD
